### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wendi Weinstein on 13 October 2005.

The application has been amended as follows:

**Claim 1, line 1**, "A perch assembly for removable attachment to a bird feeder, said assembly comprising:" was changed to --A perch assembly for removable attachment to a bird feeder having a bird feeder body, said perch assembly comprising:--

**Claim 1, line 3**, "a locating member for locating and removably engaging a body of the bird feeder," was changed to --a locating member removably engaging the bird feeder body,--

**Claim 1, line 4**, "pivoting means for allowing" was changed to --pivoting means allowing--

**Claim 1, line 5**, "such that in use said locating member may engage the bird feeder body and when so engaged said perch may pivot, from a retracted" was changed to --said pivoting means comprising a recess in said locating member and a pivot rod, wherein, when said locating member engages the bird feeder body, said pivot rod is held in place by said recess against the bird feeder body and said perch may pivot about said pivot rod from a retracted--

**Claim 1, line 7**, "bird feeder body, to an extended" was changed to --a bird feeder body to an extended--

**Claim 1, line 10**, "wherein said locating member comprises a bird feeding port." Was changed to --wherein said locating member comprises a bird feeding port and said perch is disposed beneath said feeding port.--

**Claim 3 was cancelled**

**Claim 4, line 1**, "according to claim 3" was changed to --according to claim 1--

***Allowable Subject Matter***

Claims 1, 2, 4-10, and 12 are allowed.

The following is an examiner's statement of reasons for allowance:

Cited references U.S. Patent No. 5,033,411; U.S. Patent No. 6,408,788; U.S. Patent No. 2,891,711; German Patent DE 2730066; U.S. Patent No. 4,223,637; U.S. Patent No. 4,881,491; and European Patent EP 0104766 teach pivoting perches and removable perches. However, the prior art of record all fails to show, and fails to make obvious, either alone and/or in combination a perch assembly with a locating member comprising a bird feeding port and the perch is disposed beneath the port and a pivoting means comprising a recess in the locating member with a pivoting rod about which the perch pivots when the locating member engages the bird feeder body. Applicant has claimed that when engaged the combination of the bird feeder body and perch assembly is claimed and not the subcombination because of the positive reciting of bird feeder body in line 3.

Art Unit: 3643

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
